

HVAC Incentives Across California

A directory of city, utility and CCA rebates for gas-free HVAC systems

Households across the state can receive hundreds of dollars in rebates from their utilities, governments and irrigation districts to install heat pump HVAC systems that use zero gas and can both cool and heat homes.

This directory lists available rebate programs from Anaheim and Los Angeles' public utility to Pacific Gas and Electric. The sheer number of programs highlights the widening use of heat pump-based HVAC systems. Note that SEER, EER and HSPF are energy efficiency rating systems.

Rebate Programs

Program Administrator	Program Detail
Anaheim Public Utilities	\$100 per packaged terminal heat pump unit \$100 - \$400 per ton for package heat pump of 2 to 5.3 tons \$.10 per kWh annual savings for package heat pump heavier than 5.4 tons
Azusa Light and Power	\$750 to switch from existing electric heat pump to heat pump electric space heating with SEER rating of 16 and over \$2,000 to switch from gas HVAC to heat pump electric space heating with SEER rating of 16 and over
BayREN	\$1,000 for high efficiency heat pump equal or higher than 17 SEER and 9.4 HSPF (must replace entire load associated with electric heating system or heat pump) \$500 for one or more building shell measure combined with a heating or cooling measure completed simultaneously \$100 to downsize heating and/or cooling system compared to existing system (minimum 12 kBTU or 1 ton input reduction)
Healdsburg Electric Department	\$250 per ton for air source heat pump of 15 SEER or greater \$500 per ton for air source heat pump of 18 SEER or greater
Lassen Municipal Utility District	\$100 per ton for air source heat pump, minimum 15 SEER, 8.4 HSPF \$100 per ton for ductless mini-split heat pump, minimum 15 SEER \$125 per ton for ductless mini-split heat pump, minimum 16 SEER \$1,000 per ton for ENERGY STAR ground source heat pump
Lodi Electric Utility	\$250 per ton for heat pump, 15 SEER and 8.4 HSPF or greater \$250 per ton for ductless mini-split heat pump, 15 SEER or greater
City of Lompoc	\$250 per ton for ductless mini-split heat pump

Los Angeles Department of Water and Power	Free diagnostic evaluation of HVAC systems using central air conditioners or central heat pumps of up to 10 tons and at least 1 year of age. (Suspended during COVID as of 9/30/2020) One free smart thermostat is offered per system, including installation. Up to \$1,200 to replace a qualifying existing HVAC system with an ENERGY STAR high-efficiency system
Marin County	\$1,000 standard rebate and \$4,500 income qualified rebate for central heat pump \$800 standard rebate and \$3,000 income qualified rebate for mini-split heat pump \$500 standard rebate and \$1,200 income qualified rebate for service panel upgrade
Modesto Irrigation District	\$450 per central heat pump unit (CEE Tier 1) \$700 per central heat pump unit (CEE Tier 2) \$350 per unit of ductless mini-split heat pump
Pacific Gas & Electric	\$120 for ENERGY STAR Smart Thermostat with Time-of-Use for homes with heat pump HVAC systems \$50 for ENERGY STAR Smart Thermostat for homes with heat pump HVAC systems
Pasadena Department of Water and Power	\$150 per ton for qualified heat pump or mini-split heat pump, 15 SEER or 8.5 HSPF or higher. Extra \$20 per ton if purchased in Pasadena.
Plumas-Sierra Rural Electric Co-Op	\$600 per ton for ENERGY STAR ground source heat pump \$100 per ton for air source heat pump, minimum 14 SEER and 8.0 HSPF \$250 per ton for air source heat pump, minimum 16 SEER and 8.4 HSPF \$350 per ton for air source heat pump, minimum 18 SEER and 9.5 HSPF
Redding Electric Utility	\$900 for heat pump, minimum 14.5 SEER, 12 EER, 8.2 HSPF or greater for package system. Minimum 15 SEER, 12.5 EER, 8.4 HSPF or greater for split systems.
Riverside Public Utilities	\$150 per ton for heat pump, 15 SEER to 15.9 SEER \$250 per ton for heat pump, 16 SEER or greater
Roseville Electric Utility	\$600 for heat pump system with 15 SEER, 12.5 EER, 8.5 HP or greater
Sacramento Municipal Utility District (SMUD)	\$3,000 for heat pump HVAC upgrade from gas to electric \$750 for heat pump HVAC upgrade from electric to electric
City of Shasta Lake	\$375 per ton for heat pump, minimum 15 SEER and 8.4 HSPF \$2425 per ton for ductless mini-split heat pump, minimum 15 SEER
Silicon Valley Power	\$80 to \$100/ton for unitary and packaged terminal heat pump

Southern California Edison	Up to \$300 per ton on qualifying models of central HVAC heat pumps Up to \$600 per ton on qualifying models of mini split HVAC heat pumps
Trinity Public Utility District	\$700 per unit for split system and packaged unit heat pumps, 15 SEER, HSPF 8.5 or greater

Advanced Energy Rebuild Program

Program Administrator	Program Detail
Sonoma Clean Power , Pacific Gas and Electric and the Bay Area Air Quality Management District	\$12,500 to build high efficiency, all-electric homes without natural gas service in areas destroyed by wildfire
